📊 Power BI Dashboard Ideas

1. Fraud Overview

- **KPI Cards**
  - Total Claims
  - Total Fraudulent Claims
  - Fraud Rate (%)
- **Pie/Donut Chart**
  - Fraudulent vs Non-Fraudulent Claims distribution

2. Demographics of Fraud

- **Stacked Column/Bar Chart**
  - Fraud by `Sex`, `MaritalStatus`, or `AgeOfPolicyHolder`
- **Slicers for Age, Sex, Marital Status**

3. Vehicle & Policy Analysis

- **Heatmap or Clustered Bar Chart**
  - Fraud by `Make` vs `VehicleCategory`
- **Table**
  - Top vehicle makes with highest fraud rate
- **Bar Chart**
  - Fraud by `VehiclePrice`, `AgeOfVehicle`, or `PolicyType`

4. Geographic Insight

- **Map Visualization** *(if there were geographic data — but seems it's missing)*
- Otherwise:
  - Compare `AccidentArea` (Urban vs Rural) vs Fraud Rate

5. Agent & Claim Behavior

- **Bar Chart**

Start Download (Free)

6. **Policy Duration & Fraud**
   - **Bar/Stacked Chart**
     - `Days_Policy_Accident` , `Days_Policy_Claim` vs Fraud Rate
